FORMATTING A MESSAGE MATE MP3 CARD

- 1. Insert the Message Mate MP3 card into the Messager MP3.
- 2. With the Messager MP3 plugged in, connect the USB cable from the Messager MP3 to your PC and wait for Windows to recognize the Messager MP3.
- 3. Once the Messager MP3 is recognized, double click on the "My Computer" icon. Once open the window should look like this:

- 4. Look for the Removable Disk; in the case above, Windows has assigned it letter (G:)
- 5. Right click on the drive and select "Format" (see picture below):

	Format Removable Disk (G:) 🛛 [🤉 🔯	
	Capacity:	
	File system	
	FAT32	
	FAT32	
	Default allocation size	
	Volume label	
Demovable Dick (Cr)	- Format options	
Open	Cuick Format	
Explore		
Search	Enable Compression	
AutoPlay	Create an MS-DOS startup disk	
Sharing and Security		
Scan with AVG Free		
Format	Start Close	
Eject		

5. Select "FAT" and click start.
